

SHAMANIC HEALING FOR BODY WORKERS

An Experiential Workshop

by

Gerry Starnes, M.Ed.

Basic workshop: January 28-29, 2012, 1-6 pm

Advanced workshop: February 4-5, 2012, 1-6 pm

This hands-on, experiential workshop series is specifically designed to enhance the practice of those currently licensed or certified in the healing profession, including massage therapists, nurses, medical practitioners, OT/PT, chiropractors, and others trained in physical healing practices. Shamanism is not a religion, nor is it a specific set of practices. It is a way of being in the world based on tens of thousands of years of human experience. All healing has its roots in shamanic practice.

The first weekend addresses integration of energy healing with your current practice. You will leave the first workshop with tools and techniques you can apply immediately. If you choose to continue, the second weekend workshop addresses soul loss and soul retrieval.

Part One includes discussion, dialog, and practical application of fundamental techniques:

- What is a *shaman*?
- What are Power Animals?
- Healing in the Four Realms
- Curses and Curse Healing

Part Two includes discussion, dialog, and experience of advanced techniques:

- What is Soul Loss and how is it identified?
- Soul Retrieval

Registration

Part One only: \$150 • Both Workshops: \$250

Registration is limited. Advance Registration Only! Location to be determined according to workshop size. Contact Gerry at the address below to register.

About the presenter

Gerry Starnes, M.Ed. has been a shamanic practitioner and teacher for more than 12 years, building on more than 15 additional years of energy healing and other training. He is an experienced facilitator and teacher, and offers personal healing sessions and coaching, classes and workshops in shamanic practice. He is a founding member of the Society for Shamanic Practitioners.
